# Case Study

# IT Solutioning

## Website & Mobile Apps: **SingaporeHousingLoan.sg**

### Overview

SingaporeHousingLoan.sg finds the right Loan Offer from Various Banks based on customer's profile
.

## Requirements

Client needed a Frontend landing website & Mobile apps for customers to easily access various loan calculators & offers.

.

# Solution

EvvoMobility's Solution included quick & fast paced development of all the applications as below.

- A fully functional CMS Landing website which illustrates all the offers & proves as a marketing engine for the company.

- Mobile apps in IOS & Android covers many of static features like Loan Calculators, General Mortgage Rates across various banks, various types of loans & helps any new Loan seeker in Singapore market.

- Application also creates logins & takes customer's profile to suggest the right Loan offer based on their needs & inputs.
